Student feedback on courses/curriculum

Name of the student: Gowthama Sarma G

Date: 11th July 2021

Year & Sem: II - 2

Class & Section: IT-B

Course Code	Name of the Course	Suggestions
IT221	Operating Systems	Syllabus is upto the mark
IT222	Probability Statistics & Queuing Theory	Try to introduce graph notation, as it is important for Social network & Graph analysis
IT223	Data Communications	It would have been better if practical was introduced
IT224	Database Management Systems	More Case studies should have been given for normalization.
IT225	Object Oriented Programming using JAVA	Introduce more IDE's for practical sessions.
IT226	Object Oriented Programming using JAVA Lab	It would have been with a Mini Project.
IT227	Operating Systems Lab	The Shell Scripting program numbers should be increased.
IT228	Database Management Systems Lab	The programs were upto the mark.

Any other remarks on curriculum: Virtual machine concept should have been added.

Date: 11/7/21

Name of the student: HarshYear & Sem: II/IV, Sem-2Class & Section: ITC

Course Code	Name of the Course	Suggestions
IT221	Operating Systems	Introduce virtual machines & trashing as it is most important concepts
IT222	Probability Statistics & Queuing Theory	Syllabus is upto the mark. i.e reached the expectations
IT223	Data Communications	Usage of transmission media was learned only theory & there is no practical session
IT224	Database Management Systems	Syllabus upto the mark but more case studies are required
IT225	Object Oriented Programming using JAVA	Try to introduce more IDE's for practical session.
IT226	Object Oriented Programming using JAVA Lab	Try to implement mini projects in Java
IT227	Operating Systems Lab	Need a brief concepts of shell scripting because it is most imp
IT228	Database Management Systems Lab	Upto mark

Any other remarks on curriculum: _____

Department of Information Technology**Student feedback on courses/curriculum**

Date: 11/07/2021

Name of the student: Sharon

Year & Sem: 2/4 2-2

Class & Section: IT-C

Course Code	Name of the Course	Suggestions
IT221	Operating Systems	Try to introduce virtual machines and thrashing.
IT222	Probability Statistics & Queuing Theory	Syllabus is upto the mark. and reached the expectations.
IT223	Data Communications	Better to introduce theoretical knowledge and give a brief explanation.
IT224	Database Management Systems	More case studies are required for better understanding.
IT225	Object Oriented Programming using JAVA	Introduce more IDE's for practical sessions.
IT226	Object Oriented Programming using JAVA Lab	Try to introduce mini projects. for improvement on projects.
IT227	Operating Systems Lab	Try to introduce more shell scripts programs for clear understanding.
IT228	Database Management Systems Lab	Try to introduce more projects for improvement.

Any other remarks on curriculum: _____

Date: 11 July 2021

Name of the student: Meghana

Year & Sem: 2/4 & Sem-2

Class & Section: IT-'A'

Course Code	Name of the Course	Suggestions
IT221	Operating Systems	Syllabus was up to expected all important topics was covered
IT222	Probability Statistics & Queuing Theory	Try to introduce the graphical stats. As we have graph analysis
IT223	Data Communications	Theoretical knowledge was good but practical needs to introduce
IT224	Database Management Systems	More case studies are required for better understanding
IT225	Object Oriented Programming using JAVA	Try to introduce more IDEs
IT226	Object Oriented Programming using JAVA Lab	Try to introduce mini project as java is an important language
IT227	Operating Systems Lab	Shell scripts and programs should be introduced more
IT228	Database Management Systems Lab	was up to the mark

Any other remarks on curriculum: No extra remarks

Student feedback on courses/curriculum

Date: 18/7/21

Name of the student: B. Vineeth

Year & Sem: 2nd Sem

Class & Section: IIIrd year (C)

Course Code	Name of the Course	Suggestions
IT321	Compiler Design	Reduce syllabus, Increase sessions lengthly syllabus
IT322	Design & Analysis of Algorithms	Syllabus is upto the Mark.
IT323	Object Oriented Analysis and Design with UML	More Case studies required
IT324	Mobile Computing and Application Development	Practical Exposure for subject is required.
IT325	Professional Elective-I	Learned things helped for final year project.
IT326	Mobile Computing and Application Development Lab	Learned & Covered the Concept.
IT327	Web based open-source technologies Lab	More practical sessions required.
IT328	Computer Aided Software Engineering Tools Lab	More sessions are required.
IT329	Soft Skills lab	More sessions required for GDs, activities

Student feedback on courses/curriculum

Date: 18/7/21

Name of the student: B. Srinu

Year & Sem: IIIrd year

Class & Section: IIIrd year (c)

Course Code	Name of the Course	Suggestions
IT321	Compiler Design	The shall be reduction in the syllabus.
IT322	Design & Analysis of Algorithms	Syllabus is upto the mark.
IT323	Object Oriented Analysis and Design with UML	More no. of case studies are required.
IT324	Mobile Computing and Application Development	Practical Exposure for the subject is required.
IT325	Professional Elective-I	Learned many new thing which are helpful for final year project
IT326	Mobile Computing and Application Development Lab	Covered & Learnt the concepts.
IT327	Web based open-source technologies Lab	More practical sessions are required.
IT328	Computer Aided Software Engineering Tools Lab	More sessions are required for group discussions.
IT329	Soft Skills lab	Increase no. of session for group discussions and HR.
